Re: Grant Funding for Correlative Biology Research of "SARC037: A Phase 1 Study to Evaluate the safety of Trabectedin. Drug will be administered at a 1-Hour Infusion in Ewing sarcoma Patients; with Low Dose Irinotecan and 3-Deoxy-3 F Fluorothymidine (18-FLT) Imaging".

Dear Dr. Roberts:

Congratulations on the awarding of a grant to support your team's collaborative research!

The following four foundations have joined together to offer research grants totaling \$217,953, as part of the correlative Biology Research listed above, with lead investigator Dr. Patrick Grohar of Children's Hospital of Philadelphia:

The 1 Million 4 Anna Foundation, Dallas TX
Teaming Up to Fight Childhood Cancer, Cypress TX
Wings for Ewing Sarcoma Foundation, Ardsley NY
I-Rok Foundation, Excelsior Springs MO

We understand the funding will be divided between and provided to four institutions: Children's Hospital of Philadelphia, the University of Colorado, Research Institute at Nationwide Children's Hospital, and Dana-Farber Cancer Institute. According to the assigned financial information we received from Dr. Grohar, Wings for Ewing Sarcoma will be providing a grant in the amount of \$10,000 to Dr. Ryan Roberts at Research Institute at Nationwide Children's Hospital.

We request that no more than 5% of indirect costs be charged against this grant and that 95% be used for the project mentioned above. We request that any publication on this work include mention of all four participating foundations.

We are excited and grateful for this promising and important research.

Upon receipt of this signed agreement, we will initiate funding accordingly.

With best regards,

Sandra Valle
Treasurer

Chiara Valle
President and Founder

Received and approved by (to be signed by Research Institute at Nationwide Children's Hospital):
